December 29, 1905

ROY BROWN

This community was intensely shocked and grieved Tuesday afternoon to learn of the death, at his parents' home, of Roy Brown, with Brights disease. As he had been clerking in clothing stores in Aberdeen for several years, few knew that he had been home or that he was ill.

Deceased was nearly twenty - one years of age, a graduate of the Groton schools of the class of 1902, a fine student during his school days and a young man of much promise. His death will be learned with deep sorrow by a host of friends, and the stricken family will have the sympathy of this entire community.

Funeral services will be held at the M. E. church this afternoon at 2:00.
