April 9, 1903

DEATH OF BESSIE KEISER

Miss Bessie Keiser, aged twenty-one years, died very suddenly on Monday of this week. The young lady had long been a victim of epilipsy, but for several months had shown signs of improvement and her general health appeared to be good. On the day of her death she suffered two attacks, the second proving fatal.

The funeral occurred yesterday afternoon from the Presbyterian church, and was attended by an immense throng who gathered to pay their last respects to the memory of the dead, and to show their sympathy for the bereaved family.

Up to the time of her illness about five years ago, Bessie was a bright, happy child. The ailment threw a shadow over her life, but it also strengthened the ties of love and friendship at home and among her friends, and her death is sincerely mourned by all.
